

Designing with AI: 50 Prompts for UI/UX Designers

Prompt 1: Onboarding Flow

Act as a Product Manager tasked with redesigning the onboarding process for a popular mobile app. Create a 5-step onboarding flow that includes a clear call-to-action (CTA) for users to take action within the first 30 seconds of opening the app.

Prompt 2: Website Redesign

Act as the CEO of a fashion e-commerce company. Develop a design brief outlining the key features, color palette, and typography for a visually appealing website redesign that appeals to a 25-35-year-old female audience.

Prompt 3: Voice Assistant UI

Act as a UX Designer tasked with optimizing the voice assistant user interface for a smart speaker. Develop a low-fidelity wireframe of the voice assistant's interface that minimizes visual clutter and prioritizes ease of use.

Prompt 4: User Feedback Forms

Act as a UX Researcher tasked with designing user feedback forms for a mobile banking app. Create a template for collecting user feedback using a mix of multiple-choice questions and open-ended text fields.

Prompt 5: Branding Guidelines

Act as a Creative Director tasked with developing branding guidelines for a new startup. Create a comprehensive document outlining the company's color palette, typography, logo usage, and tone of voice.

Prompt 6: Mobile App Navigation

Act as a UX Designer tasked with improving mobile app navigation for a food delivery service. Develop a wireframe of the app's navigation menu that prioritizes accessibility and ease of use.

Prompt 7: UI Kit for a Social Media Network

Act as a UI Designer tasked with creating a UI kit for a social media network. Develop a set of reusable UI components (e.g. buttons, icons, typography) that maintain the network's brand identity.

Prompt 8: Web Accessibility Audit

Act as a UX Auditor tasked with conducting an accessibility audit on an existing e-commerce website. Identify 5 key areas for improvement and provide recommendations for improving website accessibility.

Prompt 9: Error Handling Design

Act as a UX Designer tasked with improving error handling designs for an online payment system. Develop a design concept outlining a clear and concise way to

communicate payment errors to users.

Prompt 10: Mobile App onboarding Survey Design

Act as a Product Manager tasked with redesigning an onboarding survey for a mobile app. Create a 5-question survey that aims to gather actionable insights from users.

Prompt 11: E-commerce Checkout Optimization

Act as a UX Designer tasked with optimizing the e-commerce checkout flow for an online fashion retailer. Improve the checkout process to decrease cart abandonment rates by at least 15%.

Prompt 12: Low-Fidelity Wireframing

Act as a UX Designer tasked with creating low-fidelity wireframes for a new web application. Develop 5 key wireframes that illustrate the app's core features and navigation flow.

Prompt 13: Design System Documentation

Act as a Design Systems Engineer tasked with documenting the design system for an existing product. Develop a comprehensive document outlining the product's design principles, components, and guidelines.

Prompt 14: Voiceover Audio Script for a Presentation

Act as a Content Strategist tasked with creating a voiceover script for a presentation. Write a clear and engaging script that summarizes the key takeaways and key

messages.

Prompt 15: Design a Custom Dashboard for a Non-profit Organization

Act as a UI Designer tasked with designing a custom dashboard for a non-profit organization. Develop a clear and actionable dashboard that communicates the organization's key performance indicators (KPIs).

Prompt 16: User Flow Diagram

Act as a UX Designer tasked with creating a user flow diagram for a new mobile app. Illustrate the app's core features and navigation flow using a clear and concise diagram.

Prompt 17: Responsive Web Design for an Online Store

Act as a Front-end Developer tasked with implementing responsive web design principles for an online store. Develop a mobile-friendly version of the store's homepage that maintains usability and accessibility.

Prompt 18: User Research Report

Act as a UX Researcher tasked with conducting user research for a new product. Develop a comprehensive report outlining user behavior, pain points, and key findings.

Prompt 19: Custom UI Component Design

Act as a UI Designer tasked with designing custom UI components for a software development kit (SDK). Develop a set of reusable UI components (e.g. buttons, icons, typography) that maintain the brand identity.

Prompt 20: UI Design for a New Product Release

Act as a Product Manager tasked with launching a new product. Develop a UI design concept outlining the key features, color palette, and typography for the product's launch.

Prompt 21: E-commerce Cart Abandonment Analysis

Act as a UX Analyst tasked with analyzing e-commerce cart abandonment rates for an online retailer. Identify 3 key areas for improvement and provide recommendations for reducing cart abandonment rates.

Prompt 22: Accessibility Audit Report

Act as a UX Auditor tasked with conducting an accessibility audit on an existing e-commerce website. Develop a comprehensive report outlining key findings and recommendations for improving website accessibility.

Prompt 23: Custom Dashboard Design

Act as a UI Designer tasked with designing a custom dashboard for a large enterprise company. Develop a clear and actionable dashboard that communicates the company's key performance indicators (KPIs).

Prompt 24: Voice Design for an IoT Device

Act as a UX Designer tasked with designing voice interactions for an IoT device.
Develop a clear and intuitive voice interface that prioritizes usability and accessibility.

Prompt 25: In-App Tutorial Design

Act as a UX Designer tasked with creating an in-app tutorial for a new mobile app.
Develop a clear and engaging tutorial that reduces the learning curve for new users.

Prompt 26: Brand Identity Document

Act as a Creative Director tasked with developing a brand identity document for a new startup. Develop a comprehensive document outlining the company's core values, mission, and visual identity.

Prompt 27: E-commerce Search Function Design

Act as a UX Designer tasked with improving the e-commerce search function for an online retailer. Develop a search function that prioritizes relevance and usability.

Prompt 28: Low-Fidelity Prototyping

Act as a UX Designer tasked with creating low-fidelity prototypes for a new product.
Develop 5 key prototypes that illustrate the product's core features and navigation flow.

Prompt 29: Design a Custom Mobile App for a Restaurant

Act as a UI Designer tasked with designing a custom mobile app for a restaurant. Develop a user-friendly app that allows users to order food and manage their loyalty rewards.

Prompt 30: Custom UI Kit for a Financial Services Company

Act as a UI Designer tasked with creating a custom UI kit for a financial services company. Develop a set of reusable UI components (e.g. buttons, icons, typography) that maintain the brand identity.

Prompt 31: Voiceover Script for a Video Production

Act as a Content Strategist tasked with creating a voiceover script for a video production. Write a clear and engaging script that summarizes the key takeaways and key messages.

Prompt 32: UI Design for a Mobile Game

Act as a UI Designer tasked with designing the UI for a mobile game. Develop a user-friendly interface that enhances the gaming experience.

Prompt 33: Custom Dashboards for Business Intelligence Tools

Act as a UI Designer tasked with designing custom dashboards for business intelligence tools. Develop a clear and actionable dashboard that communicates key performance indicators (KPIs).

Prompt 34: E-commerce Payment Method Selection

Act as a UX Designer tasked with improving the e-commerce payment method selection for an online retailer. Develop a clear and accessible selection process that reduces checkout friction.

Prompt 35: Inclusive Design for a Website

Act as a UX Designer tasked with creating an inclusive design for a website. Develop a design that prioritizes accessibility and usability for users with disabilities.

Prompt 36: Voice Design for a Smart Home System

Act as a UX Designer tasked with designing voice interactions for a smart home system. Develop a clear and intuitive voice interface that prioritizes usability and accessibility.

Prompt 37: Custom UI Kit for a Healthcare Company

Act as a UI Designer tasked with creating a custom UI kit for a healthcare company. Develop a set of reusable UI components (e.g. buttons, icons, typography) that maintain the brand identity.

Prompt 38: E-commerce Product Review System

Act as a UX Designer tasked with improving the e-commerce product review system for an online retailer. Develop a clear and accessible review process that encourages user engagement.

Prompt 39: UI Design for an Online Community Platform

Act as a UI Designer tasked with designing the UI for an online community platform. Develop a user-friendly interface that enhances the community experience.

Prompt 40: In-App Navigation for a Mobile App

Act as a UX Designer tasked with creating an in-app navigation system for a mobile app. Develop a clear and intuitive navigation system that reduces the learning curve for new users.

Prompt 41: Custom Dashboard for a Sales Team

Act as a UI Designer tasked with designing a custom dashboard for a sales team. Develop a clear and actionable dashboard that communicates key performance indicators (KPIs).

Prompt 42: E-commerce Cart Abandonment Recovery

Act as a UX Designer tasked with designing an e-commerce cart abandonment recovery email campaign. Develop a clear and engaging email that re-engages users and reduces cart abandonment.

Prompt 43: Voiceover Script for a Presentation

Act as a Content Strategist tasked with creating a voiceover script for a presentation. Write a clear and engaging script that summarizes the key takeaways and key messages.

Prompt 44: UI Design for a Mobile Payment Wallet

Act as a UI Designer tasked with designing the UI for a mobile payment wallet.

Develop a user-friendly interface that simplifies mobile payments.

Prompt 45: Custom UI Kit for a Sports Team

Act as a UI Designer tasked with creating a custom UI kit for a sports team. Develop a set of reusable UI components (e.g. buttons, icons, typography) that maintain the brand identity.

Prompt 46: Inclusive Design for a Mobile Game

Act as a UX Designer tasked with creating an inclusive design for a mobile game.

Develop a design that prioritizes accessibility and usability for users with disabilities.

Prompt 47: E-commerce Product Comparison Function

Act as a UX Designer tasked with improving the e-commerce product comparison function for an online retailer. Develop a clear and accessible comparison process that enhances user experience.

Prompt 48: Custom Dashboards for Financial Reporting

Act as a UI Designer tasked with designing custom dashboards for financial reporting.

Develop a clear and actionable dashboard that communicates key performance indicators (KPIs).

Prompt 49: Voice Design for a Wearable Device

Act as a UX Designer tasked with designing voice interactions for a wearable device. Develop a clear and intuitive voice interface that prioritizes usability and accessibility.

Prompt 50: Design a Custom Website for a Professional Services Firm

Act as a UI Designer tasked with designing a custom website for a professional services firm. Develop a user-friendly website that communicates the firm's services and expertise.
