

50 ChatGPT Prompts for Freelance Designers

Prompt 1: Client onboarding

Act as a seasoned freelance graphic designer, and I'm a new client looking for a comprehensive onboarding process. Outline a step-by-step guide including communication, project management, and deliverable expectations.

Prompt 2: Business card design inspiration

Play the role of a design expert, and I'm a small business owner looking for innovative business card design ideas. Provide five modern concepts and explain the typography, color schemes, and layout considerations for each.

Prompt 3: Website wireframing

Act as a skilled UX/UI designer, and I need to create a wireframe for a fictional e-commerce website. Sketch out the layout, including header navigation, product category, and checkout sections, using a standard tool like Figma.

Prompt 4: Personal project idea

Role-play as a creative coach, and I want to start a side project to improve my design skills. Suggest a brief with a concept, target audience, and creative objectives for a visually striking campaign or brand identity.

Prompt 5: Design critique

Act as a constructive design critic, and I've attached a link to a new logo design for a client. Evaluate the logo for its scalability, versatility, and visual impact, and suggest improvements for a more effective design.

Prompt 6: Social media branding

Play the role of a social media expert, and a local business wants to establish a strong online presence through visually cohesive branding across Instagram, Facebook, and Twitter. Provide style guide suggestions for imagery, typography, and tone of voice.

Prompt 7: Icon design inspiration

Act as a creative director, and I'm looking for ideas for a set of reusable icons for a digital product. Research and suggest ten modern icon styles, styles tips, and the benefits of each approach.

Prompt 8: Website color palette

Role-play as a color theory expert, and a startup wants to define its website's color palette. Analyze four color combinations for contrast, harmony, and legibility, suggesting suitable background textures and patterns for each.

Prompt 9: Graphic organizer template

Act as an organizational expert, and I need to streamline my design workflow by using customizable graphic organizers for client information, project management, and time tracking. Design a visually appealing template with sections for tasks, deadlines, and

progress.

Prompt 10: Brand guidelines

Play the role of a brand specialist, and a company wants to establish consistent visual identity across all touchpoints. Develop a set of comprehensive brand guidelines, including tone of voice, logo usage, and typography recommendations.

Prompt 11: Marketing materials design

Act as a marketing expert, and a new product launch requires a suite of marketing materials. Design a brochure, flyer, and email template that showcase the product's key benefits, features, and user testimonials.

Prompt 12: User experience strategy

Role-play as a UX strategist, and a client's website has a high bounce rate. Develop a user experience strategy to address pain points, including site navigation analysis, usability testing recommendations, and design concept suggestions.

Prompt 13: Infographic design

Act as a visual storyteller, and I need to create an engaging infographic to illustrate a complex technical concept. Suggest a clear and concise visual narrative structure, color palette, and typography recommendations.

Prompt 14: Mood board design

Play the role of a design curator, and a client wants to explore different visual directions for their new product. Develop a comprehensive mood board incorporating imagery, textures, and colors that evoke the desired brand vibe.

Prompt 15: Design file naming convention

Act as an organizational specialist, and I'm struggling to keep track of multiple design files and versions. Suggest a clear and efficient file naming convention that includes project name, version number, and task-specific details.

Prompt 16: Business proposal template

Role-play as a sales expert, and I need to create a professional business proposal for a new client. Design a template that outlines scope, timeline, and budget, along with sample sections for client testimonials and past work examples.

Prompt 17: Website accessibility audit

Act as an accessibility specialist, and a client's website needs a thorough audit to ensure compliance with WCAG 2.1 standards. Provide recommendations for image alt text, color contrast, and keyboard navigability improvements.

Prompt 18: Product photography tips

Play the role of a photography expert, and a client wants to increase e-commerce sales through high-quality product images. Share technical tips and creative advice for shooting products, including composition, lighting, and product styling.

Prompt 19: Style guide document

Act as a design evangelist, and a client wants to maintain consistency across all brand touchpoints. Develop a comprehensive style guide document that outlines typography, color, layout, and creative asset usage.

Prompt 20: Packaging design

Role-play as a product designer, and a company wants to redesign its packaging for maximum impact. Suggest a minimalist design concept, material options, and structural recommendations that enhance brand awareness and user experience.

Prompt 21: UI/UX design for mobile apps

Act as a mobile app designer, and a client wants to create an engaging mobile app experience. Provide design concepts for the onboarding process, navigation, and in-app features, considering platform-specific design patterns.

Prompt 22: Social media ad design

Play the role of a paid advertising expert, and a business wants to run a social media advertising campaign. Design a visually appealing ad concept with an engaging headline, compelling image, and clear call-to-action.

Prompt 23: Brand voice development

Act as a creative director, and a client wants to establish a unique brand voice across all marketing channels. Develop a clear and compelling brand voice profile that considers audience, tone, and messaging objectives.

Prompt 24: Logo design inspiration

Role-play as a design inspiration seeker, and I need fresh ideas for my next logo project. Provide ten unique logo concepts incorporating various styles, typography, and composition techniques.

Prompt 25: Email newsletter template

Act as an email marketing expert, and I need a professional email newsletter template for a client's monthly update. Design a visually appealing template with clear sections for content, calls-to-action, and social media links.

Prompt 26: Business card ideas for creatives

Play the role of a design thinker, and a creative professional wants to stand out with a unique business card design. Suggest innovative ideas that incorporate unique materials, special printing techniques, or distinctive shapes.

Prompt 27: Visual identity system

Act as a visual identity expert, and a non-profit organization wants to create a cohesive visual identity system. Develop a comprehensive strategy incorporating logo design, color palette, typography, and imagery usage guidelines.

Prompt 28: Design systems documentation

Role-play as a design system architect, and a client wants to establish a clear design language across their organization. Create a design systems document outlining component usage, typography, color, and layout guidelines.

Prompt 29: Marketing automation email design

Act as a marketing automation expert, and a business wants to optimize its email marketing campaigns. Design a series of automated email templates that incorporate conditional logic, dynamic content, and clear calls-to-action.

Prompt 30: Print ad design

Play the role of a print advertising expert, and a client wants to create an attention-grabbing print ad. Develop a design concept that includes headline, body copy, and visual elements, considering layout, typography, and color palette.

Prompt 31: Icon design tutorial

Act as an icon design expert, and I want to learn the basics of creating effective icons. Provide a step-by-step guide on icon creation, including research, sketching, and refinement techniques.

Prompt 32: Website layout optimization

Role-play as a web performance expert, and a client wants to improve their website's loading speed and user experience. Suggest a layout optimization strategy that balances content, images, and white space for improved usability.

Prompt 33: Presentation design

Act as a presentation designer, and a business owner wants to create a compelling presentation for their investors. Design a visually appealing template with clear sections for key messages, data visualization, and call-to-action slides.

Prompt 34: Brand guidelines for startups

Play the role of a brand expert for startups, and a new company wants to establish a consistent visual identity. Develop a comprehensive brand guidelines document that considers typography, color palette, imagery usage, and tone of voice.

Prompt 35: UI/UX design for web applications

Act as a web application designer, and a client wants to create an intuitive web app experience. Provide design concepts for the login process, dashboard, and in-app navigation, considering platform-specific design patterns.

Prompt 36: Online course design

Role-play as an online education expert, and a business wants to create an engaging online course experience. Design a visually appealing template with clear sections for course structure, lessons, and assessments.

Prompt 37: Business proposal video script

Act as a video scriptwriter, and a business owner wants to create a persuasive business proposal video. Develop a script that outlines the problem statement, solution, and value proposition, with clear calls-to-action.

Prompt 38: Infographic creation

Play the role of an infographic designer, and a client wants to visualize complex data and statistics. Design an engaging infographic with clear sections for key findings, supporting data, and visualizations.

Prompt 39: Packaging design for e-commerce

Act as an e-commerce expert, and a business wants to optimize its packaging design for enhanced customer experience. Suggest a minimalist design concept, material options, and structural recommendations for a seamless unboxing experience.

Prompt 40: Event invitation design

Role-play as a designer, and a business wants to create a unique event invitation for their product launch. Design an eye-catching template with clear sections for event details, venue, and RSVP information.

Prompt 41: UI kit design

Act as a UI kit designer, and a client wants to establish a consistent visual language across their product suite. Develop a comprehensive UI kit that includes design elements, icons, and typography guidelines.

Prompt 42: Marketing analytics dashboard

Play the role of a data analyst, and a business wants to create a clear and actionable marketing analytics dashboard. Design a visually appealing template with clear sections for key performance indicators, trend analysis, and data visualization.

Prompt 43: Brand voice development for social media

Act as a social media expert, and a business wants to establish a unique brand voice on its social media channels. Develop a clear and compelling brand voice profile that considers audience, tone, and messaging objectives.

Prompt 44: Presentation on data visualization

Role-play as an expert on data visualization, and a business wants to present key findings to their investors. Design a visually appealing presentation with clear sections for key messages, data visualization, and call-to-action slides.

Prompt 45: UI/UX design for mobile apps with chat functionality

Act as a chat app designer, and a client wants to create an intuitive chat app experience. Provide design concepts for the chat interface, navigation, and features, considering platform-specific design patterns.

Prompt 46: Business website audit

Play the role of an SEO expert, and a business wants to optimize their website for better search engine rankings. Conduct a comprehensive website audit, including keyword research, link structure analysis, and technical optimization recommendations.

Prompt 47: Designing for accessibility

Act as an accessibility specialist, and a business wants to ensure their product is accessible to users with disabilities. Develop an accessibility design guide that outlines best practices for color contrast, image alt text, and keyboard navigability.

Prompt 48: Social media content calendar

Role-play as a social media scheduler, and a business wants to create a content calendar for their social media channels. Design a visually appealing template with clear sections for content planning, scheduling, and analytics tracking.
